

1.Problem Statement

StudentHub Portal Problem:

Students have to visit different places or websites to check assignments, courses, events, notices, and their profiles. This wastes time and creates confusion.

Solution:

The StudentHub Portal provides all student-related information in one website. Students can log in, view courses, assignments, events, and manage their profiles easily.

2.Scope

The StudentHub Portal is developed for students and faculty.

The portal allows users to:

Student Registration

Student Login

View Dashboard

View Courses

View Assignments

View College Events

View Student Profile

Contact College

3.User Roles

Student:

Register

Login

View Dashboard

View Courses

Check Assignments

View Events

Update Profile Faculty:

Upload Assignments

Update Courses

Post Events

Admin:

Manage Students

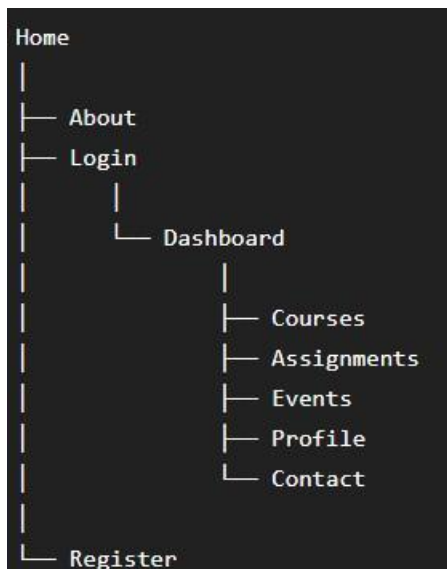

Manage Faculty

Manage Courses

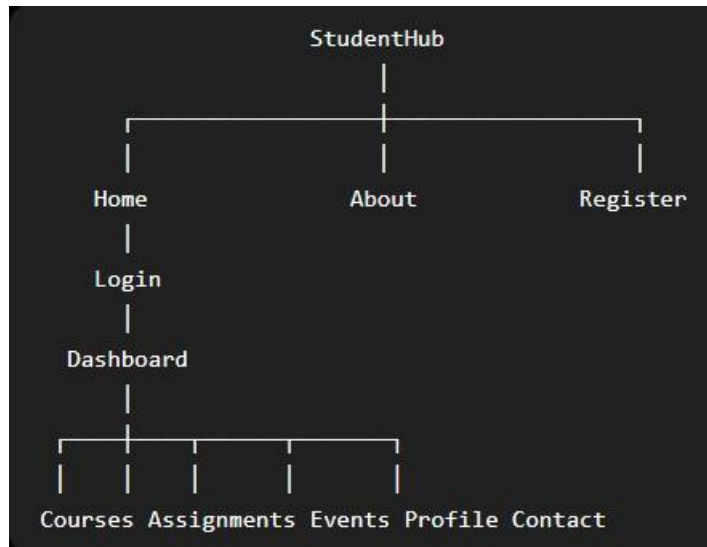

Manage Events

Maintain Website

DEPSTAR, CHARUSAT

Description

StudentHub Portal is a simple
HTML website developed for
students.

It provides

- Home
- About
- Login
- Registration
- Dashboard
- Courses
- Assignments
- Events
- Profile
- Contact

Technologies Used
